

Millions of Americans suffer from arthritis pain

Many have tried medicines, physical therapy, injections, creams, weight reduction & more without success

Many are reluctant to take the next step of radical knee or joint replacement surgery

Now, finally, there's a new option available from Dr Lederman to bridge the gap between non-invasive treatments and radical joint replacement!

Might be time if you're suffering from joint pain caused by arthritis to consider DR LEDERMAN'S LOW DOSE RADIATION THERAPY for Arthritis pain and suffering

Potential benefits include most commonly a high degree of success to relieve pain with few or no side-effects!

Treatments are outpatient & few in number

Treatments are commonly covered by Medicare, Medicaid & most insurances

LOW DOSE RADIATION FOR ARTHRITIS PAIN is conveniently located by Dr Lederman at 1384 Broadway in Manhattan

Best is always to meet in person to discuss details and options

Great news for people suffering from arthritis pain!
